FACILITIES AND RACING AREAS

Circolo Vela Torbole will provide a perfect balance of facilities and racing areas. The 2 areas provide an "open" championship race course and not a one sided, Top end wind speeds are really strong, like in case of Ora wind

FACILITIES OF CIRCOLO VELA TORBOLE

The Club has excellent facilities on shore a beach, beach bars for partners and families to view the racing. The Club has an excellent reputation for race management, and social events.

EXPERIENCE GARDA LAKE

"The Warm breeze accelerates as you get closer to the cliffs, you look around in awe at the scenery and ask yourself, is this the best place to sail in the world?"

Blowing from the South, the Ora is the most famous wind in Upper Garda, well known by surfers and sailors from all over the world. It alternates with Pelèr a northern morning wind).

This typical wind achieves its maximum intensity in Upper Garda thanks to the orographic conformation of the territory which causes the Venturi effect which intensifies its wind force to over 10m/s.
